

100% Organic FOOD SAFE SANITIZER

Combating food security issues through **eradicating** harmful microbes on food and food contact surfaces.

About Miracle Everyday

- Food Safe Sanitizer is a broad-spectrum anti-microbial agent effective against all bacteria, fungi and certain RNA and DNA viruses.
- It works by causing cell-wall intrusion, complexation of key cations and disruption of protein functioning which adversely affects cellular as well as non-cellular organisms like bacteria, fungi, molds and viruses.
- Food Safe Sanitizer offers mechanical killing action of microbes which prevents their resistance development.

Certifications

- NASAA - certified 100% organic
- CNAS certified 100 % non - toxic
- Tested chemical and pesticides residue free by ICAR NRCG

Powered by

Aussan Laboratories India is a subsidiary of **Aussan Laboratories Australia**. We work in providing innovative organic and healthy solutions for food sectors and animal husbandry development.
